**Attachments:** T-Plant 277-T Building Closure Plan\_20150803.docx

Stuart:

My comments are in the attached document.

One of my concerns is that this closure plan does NOT reflect a number of comments provided to Ecology previously for the FS-1. I don't know whether this is because the comments never got to the facility side, or they simply did not address them. I'm a little concerned at the amount of extra time necessary to make the same comments on various closure plans, all coming out of CHPRC. Might be something to look at more closely. I'm also concerned with the lack of internal consistency in the closure plan – this sort of issue should be caught by technical editing before documents come to Ecology.

Questions/comments welcome.

Dave

Dave,

I have attached the most recent file for the subject plan for your review. This has the tracked changes.

Thank you,
